

Grade 9 MATHS JUNE EXAM PREPARATION

You might have a busy schedule, but you also want to get good marks in the exam. Make time every day for you're an **hour or half an hour of maths exercises** for the **two weeks prior to the exams**. This time must be over and above the time spent on maths in school and for maths homework.

The mind increases in power and efficiency by use. It becomes strong by hard thinking. ☺

Use the purple **Examination Aid book** to prepare for the exam: "MATHEMATICS GRADE 9 PAPERS WITH SOLUTIONS." **Do papers C and D and E** for the revision roster.

ROSTER:

Day 1: Chapter 1: WHOLE NUMBERS. (It includes Financial Maths.) See Examination Aid: Question 1 and Question 2, from first paper.

Day 2: Chapter 2: INTEGERS. See Examination Aid: Question 3, from first paper.

Day 3: Chapter 3: COMMON FRACTIONS plus Chapter 4 DECIMAL FRACTIONS. See Examination Aid: Question 4, from first paper.

Day 4: Chapter 5: EXPONENTS. See Exam Aid, Question 5, from first paper

Day 5: - Chapter 6: NUMERIC AND GEOMETRIC PATTERNS. See Exam Aid, Question 6, from first paper.

Day 6: Chapter 7: FUNCTIONS AND RELATIONSHIPS. See Exam Aid, Question 7, from first paper.

Day 7: Chapter 8: ALGEBRAIC EXPRESSIONS. See Examination Aid, Question 8 and Question 10, from first paper.

Day 8: Chapter 9: ALGEBRAIC EQUATIONS. See Examination Aid, Question 9, from first paper.

Every day do the following three steps, for one of the chapters from the Maths textbook:

☞ **STEP 1:** Go through the theory of the chapter before you do the sums.

☞ **STEP 2:** Do one example from each set of examples. Cover the solutions COMPLETELY – do NOT even peep at the very first line of the solutions.

☞ **STEP 3:** Do the corresponding questions from the Examination Aid book. Make sure you can get to the right answers – the solutions are at the back of the book.

☞ **Make sure that you do STEP 3!** (If these are the only sums that you do from a chapter, and you manage the sums, you have DONE WELL! ☺)

There is **LOTS** of work to master. Be positive and resolute and make sure that you are well prepared when the exams start.
